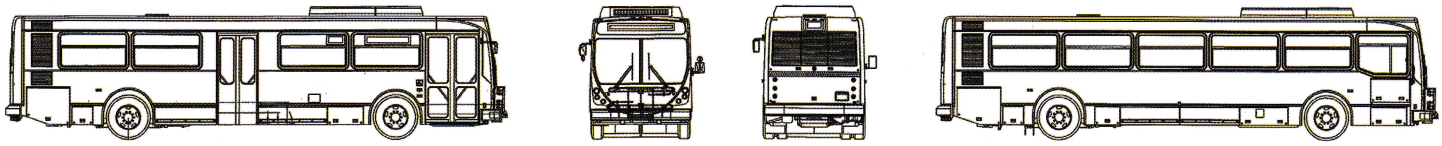
a brand of North American Bus Industries, Inc.

416 (Standard Floor)



416 (Standard Floor Bus)

A restyled 416 bus available in 40' length has recently gone through a face lift. An updated appearance and technical requirements such as an above-engine mounted radiator made it the selection of choice by New Jersey Transit the second largest transit bus fleet in the U.S. with over 3,000 buses. NABI has been manufacturing model 416 standard-floor buses since 1992.
